

K-LOVE provides positive, uplifting music and commentary that is not available on other radio stations in Anchorage, Alaska. It is commercial free, so advertisement does not take away from the message or pleasure of listening to this station. If an LPFM station is allowed to replace K-LOVE then we will lose this valuable, one of a kind station. K-LOVE provides a unique, positive service to our community which logically is in the public interest. Thank you for considering the public's best interest.
